Summary

Software Engineering undergraduate with strong foundations in data structures, algorithms, and OOP. Built and deployed full-stack web applications using the MERN stack, Next.js, and modern backend tools including AI integrations.

Education

Finolex Academy of Management and Technology, Ratnagiri

2022 – 2026

Information Technology **CGPA: 8**

Abhyankar Kulkarni Junior College, Ratnagiri

2021 – 2022

HSC **Aggregate: First Class Pass**

Skills

Programming Languages: Java, JavaScript (ES6+), SQL

Web Technologies: React, Next.js 15, Node.js, Express, TailwindCSS, Prisma ORM, GSAP

Databases: PostgreSQL, MongoDB, MySQL

Cloud & DevOps: AWS (Lambda, S3, RDS), Docker, Render, Vercel

CS Fundamentals: Data Structures, Algorithms, Object-Oriented Programming (OOP), DBMS

Tools & Platforms: Git, GitHub, Postman, Clerk Auth, Figma

Achievements

- Participated in **Code Clash 2.0 Hackathon** (2025), backed by **Google Gurgaon**; built a privacy-focused LMS mood tracker using emojis and a local bot.
- Won the **Internal College Hackathon** (2024) and secured institute-level selection for the **Smart India Hackathon (SIH)** with a carbon footprint analysis solution for Indian coal mines.

Projects

BudgetPilot – AI-Powered Personal Finance Platform | [GitHub](#) | [Live Demo](#)

August 2025 – Present

- Built a full-stack finance app for Indian users using **Next.js 15**, **PostgreSQL (Supabase)**, **Prisma ORM**, **Clerk**, and **Gemini AI** and deployed on **Render** with security rate limiting via **Arcjet**.
- Implemented **AI-generated weekly investment advice**, automated budget alerts via email (**Resend**), and background job scheduling using **Inngest**.
- Developed features including an **EMI loan tracker** with amortization schedules, savings goal velocity tracking, financial health scoring, and **bank statement PDF import** with AI extraction.

ThinkStack – Full-Stack Learning Management System | [GitHub Repo](#) | [Live Demo](#)

January 2026 – March 2026

- Developed a comprehensive LMS with **JWT-based authentication**, role-based access control, and specialized workflows for **Instructors** and **Students** using the **MERN stack**.
- Integrated **Stripe API** for secure transactions, implementing **Webhooks** for real-time payment verification and course access granting.
- Leveraged **Cloudinary** for optimized video hosting and streaming, ensuring seamless delivery of lecture content.
